Dear Hiring Manager,

I am writing to express my interest in the AI Engineer position at IBM. As a soon-to-be graduate with a Bachelor of Technology in Computer Science and Engineering from Lendi Institute of Engineering and Technology, I have developed a strong foundation in Python, data analysis, deep learning frameworks, and AI model development. My academic background, combined with hands-on experience through internships and projects, has equipped me to contribute effectively to the development of intelligent systems that drive business innovation.

During my internship at Brainmage.ai, I engineered and optimized datasets through preprocessing and exploratory data analysis, ensuring high-quality inputs for conversational AI models. I also enhanced Large Language Models (LLMs), improving system performance and reducing response latency. At SKOLAR, I developed time series forecasting models and predictive stock market models, applying cross-validation techniques to enhance model robustness and generalizability. Additionally, my project experience, such as building a real-time E-Commerce Product Assistant, allowed me to integrate RAG and MM-RAG workflows, deploy scalable microservices on AWS EKS, and implement CI/CD pipelines with GitHub Actions.

My technical expertise spans Python, C, PyTorch, TensorFlow, Scikit-learn, Hugging Face Transformers, OpenCV, FastAPI, Docker, Kubernetes, and cloud platforms including AWS. Beyond coding, I have experience in deploying AI models, implementing semantic search, and integrating multi-agent systems. I am confident that my skills and enthusiasm for AI and machine learning will allow me to contribute meaningfully to IBM's innovative projects.

I am excited about the opportunity to join IBM and contribute to its mission of leveraging AI for impactful solutions. I would welcome the chance to discuss how my background, skills, and passion align with your team's objectives.

Thank you for considering my application. I look forward to the opportunity to further discuss how I can contribute to your organization.

Sincerely,

Pakki Bhargava Shanmuka Sai
